

SPECIAL TOUCHES:

VISION

In this lesson, participants discover the transformative power of vision and recognize its evolution over time. A meaningful follow-up activity to consider is the creation of a **faith-based vision board**. While this is ideally suited for later stages of the class or as a follow-up activity after it concludes, attendees can begin preparing now by engaging in prayerful reflection on God's direction for their lives. Encourage them to gather images, scriptures, phrases, quotes, or keywords that resonate, without worrying about filtering at this stage. For detailed instructions on crafting a God-directed vision board, look for next steps in the **“Videos” section of the Toolbox**.
