BRAVERY

Scripture Index Card Box Activity

Guide participants in creating their own personalized scripture index card boxes filled with verses that inspire them. Encourage them to start by selecting 1-2 verses that resonate with them, inviting them to reflect on why these verses are meaningful.

Next, provide materials for decorating small boxes or containers. Suggest using markers, stickers, or washi tape to add a personal touch. Participants should write their chosen verses on blank index cards and consider jotting down a personal reflection or thought on the back to enhance their connection.

Once their boxes are complete, encourage participants to keep them in accessible places. Remind them to draw cards daily or weekly for motivation and to refer back to the verses whenever they need encouragement. As they continue their journey, participants can add more verses over time, creating a growing collection that nurtures their faith and offers ongoing support.
